CHALLENGES
• Connectivity between 50 Field Workers and Head Office
• Cost-effective Solution without Changing the Current System
• Support Organization’s Expansion Plans
• Easy Management of Communication System

SOLUTION
ETERNITY PE – IP-PBX and SPARSH M2S – Mobile Softphone
• Reduced Telecom Cost up to 80%
• Delivered on-the-move Mobility to Field Workers
• Peer-to-Peer Connectivity between Existing IP-PBX and ETERNITY PE over IP
• Remote Management of all the Systems with Web based GUI
SOLUTION
Matrix offered its ETERNITY PE IP-PBX with SPARSH M2S — Mobile Softphone as a business mobility solution. ETERNITY PE is a cost-effective IP-PBX for mid-size businesses. It offers scalable platform and universal connectivity that can be flexibly configured, expanded and centrally managed to address specific communication needs.

SPARSH M2S is a Mobile Softphone application for Android/iPhone smartphones that redefines the workplace experience for Matrix IP-PBX users. It delivers one touch access to advance call management features of Matrix IP-PBX such as Call Conference, Presence, Corporate Directory Access and Voice Mail.

Reduced Telecom Cost up to 80% with IP Telephony between Head Office and Field Workers
Using IP telephony of VoIP network, Neelam Realtors reduced the telecom cost up to 80% on calls exchanged between head office and field workers. With flexible scalability and minimum investment, IP telephony features of ETERNITY PE offers simple 3-digit Dialing, Conference, Call Transfer and other Call Management features bringing diversity to solutions and making it an easy choice for customer.

Delivered on-the-move Mobility to Field Workers
Business Mobility solution from SPARSH M2S — Mobile Softphone empowered the field workers to have one-touch access to co-workers in head office by simply Dial-by-Extension or Corporate Directory Access making them virtually present at the desk. Moreover, enhanced collaboration with Video Calling, Instant Messaging, Presence Sharing and Voice Mail features redefines the workplace experience.

Peer-to-Peer Connectivity between Existing IP-PBX and ETERNITY PE via IP to use Existing Infrastructure
With the help of IP network, existing IP-PBX and ETERNITY PE were connected for expansion of the system without drastically changing the infrastructure. The future ready VoIP technology helped the customer to save additional cost on infrastructure.

Remote Management of all the Systems with Web based GUI
With the web based Remote Management feature, all the systems can be centrally managed by the IT administrators from anywhere through any device.
